

**Dear Valued Clients**

## ANNOUNCEMENT

We are pleased to announce the appointment of **Sadeli bin Ishak**, Bachelor of Mass Communication (Hons) Public Relations, Dip. in Mechatronic Engineering (Industrial Control & Automation), as our **Marine Manager** based in Kuala Lumpur.

**Sadeli** has more than 10 years experience in marine surveying and insurance loss investigation, covering a wide spectrum of surveying work including goods in transit, freight forwarders, and carrier/warehouseman liability claims. He also undertakes hull damage surveys, pre-shipment inspections and loading/discharge surveys. Prior to joining the marine surveying industry, he gained experience in the industrial engineering sector setting up, calibrating and effecting industrial and electrical/electronic maintenance.

He is assisted by a **team of experienced marine surveyors/adjusters** in Kuala Lumpur, majority of them with over 5 years marine surveying experience.

Our recent new engineering surveyor/adjuster include **Anis Nur Amalina**, a graduate from Malaysian Maritime Academy and she holds a Certificate of Competency Class 3 (Motor Vessel). **Anis'** career includes time onboard ship in ranks to Fourth Engineer before joining a marine surveying firm for over 2 years.

With a branch network of 11 offices with marine surveyors in these offices, we are well placed to provide excellent service delivery nationwide.

The Mestari Marine team is further supported by various practice leaders who specialize in engineering, contractual, liability and legal issues related to insurance claims.

We thank you for your past support and look forward to continue developing our role as preferred adjusters/surveyors to support the management of your claims.

***“YOUR BUSINESS, YOUR CUSTOMER, WE CARE”***
